Brookie's

CAPE BYRON 'THE ORIGINAL' AUSTRALIAN SINGLE MALT WHISKY

TASTING NOTES

The nose leads with an interplay of vanilla and ripe fruit teasing with notes of charred oak. On first sip, the fruitiness comes to the fore but it's not the orchard fruit flavours we often associate with Scottish whiskies. It is brighter, more flavoursome and somewhat closer to our shores. I get hints of tropical fruit, predominantly mango followed by a touch of nuttiness, possibly hazelnut and at the very finish, an ephemeral hint of salinity. The long, smooth and warming finish encourages another sip and by the second and third, I am taken on a flavour journey through the rainforest.
