

Kennay Farms Distilling Rye Whiskey

Our family has had their hands in the dirt for six generations. This experience gives us the knowledge you can't learn from books; it has to be passed down to each generation and learned in person. As farmers, we know a superior product takes heart and hard work. We bring these principles to the distillery, where our rye whiskey is created from corn grown on our farm and locally-sourced small grains from the valleys of the Mississippi River. The sweetness of corn and softness of wheat balance the bold, spicy characteristics of rye for a flavor that tastes far beyond its years. The robust barrel char is assertive, yet allows the fiery personality of the rye to shine through. Following the character of the farm, our rye is confident and bold, doesn't hold back on fullness or flavor ~ it's all in, all the time.
