

Kennay Farms Distilling Vodka

The family farm is more than a business, it is a way of life. With a strong passion for agriculture and family; the goal was always to provide a sustainable family business for future generations. And anytime someone wanted to return home to work on the farm, there would be a place for them. So we had to grow; that's when Kennay Farms Distilling was born. After a two-year renovation to a historic theatre, we opened the distillery in 2019. Our vodka is 100% corn grown on our farm. The seeds are planted with precision, harvested with care, and distilled with discipline; all by a member of the Kennay Family. It passes through twenty distillation plates and an active carbon filter bed for a smooth, satiny finish. When you pour a drink from Kennay Farms, you know it's from a family devoted to craftsmanship, sustainability, and hard work. This vodka earned a score of 91 Points at the Denver International Spirits Competition.
