

TEERENPELI

Teerenpeli PORTTI Finnish Single Malt Whisky

Teerenpeli PORTTI Finnish Single Malt Whisky is an incredibly well-made whisky, which was distilled and aged in Finland using locally grown barley. The whisky is distilled from 87% pilsner malt, and 13% heavily peated malt, and the resulting new make spirit is peated to 5ppm. The pilsner malt is grown in Finland within 95 miles of the distillery, while the water used to make the spirit is filtered through the Salpausselkä esker, a gravel ridge formed by the ice age about 10,000 years ago. The spirit is double distilled on copper pot stills, which were produced in Scotland for Teerenpeli's own design specifications. Following distillation, PORTTI is initially aged in ex-Bourbon casks, before being finished in first-fill Port wine casks. The casks are placed in 40 foot shipping containers and are placed outside, where the extreme temperature shifts of the Finnish climate help craft an extremely complex whisky. In Finland, the temperature in the winter drops to -30° F, while it gets as high as 85° F in the Summer. No artificial heating or cooling is used during the ageing process. The final result is a beautiful and complex whisky, with a creamy-maltiness and a hint of peat. This whisky is fun to taste next to Teerenpeli's KASKI Single Malt Whisky, which is distilled the exact same way and aged for the exact same amount of time, but rests in different casks. Teerenpeli PORTTI Single Malt Whisky was awarded 94 Points by IWSC.

Technical Details

COUNTRY OF ORIGIN: Finland

TYPE OF SPIRIT: Single Malt Whisky

MASH BILL: 100% locally grown Finnish malted barley, all grown within 95 miles of the distillery. 87% pilsner malt, and 13% heavily peated malt. The result is a new make spirit that is peated to 5ppm

CASKS: Initially aged in ex-Bourbon casks for several years and then finished in Port casks for eighteen months. Casks mature in 40 foot ex-reefer sea containers, with no artificial heating or cooling used. The temperature drops to as low as -30 F in the winter and 85 F in the summer, and these extreme fluctuations help create an exquisite whisky

PROOF: 86

RATINGS

94 Points, IWSC: *"Inviting nose of delicately sweet butterscotch and hints of creamy milk chocolate. Gentle tealeaf notes are joined by sweetness and washed away by cleansing lemon and lime: perfectly balanced."*
